- **Hodan Nalayeh Secondary School** Vaughan, Ontario
Graduating June 2025 2025
- **LOI Accelerator** Remote
Accepted into Labs Batch 13 to accelerate my startup GradeAssist 2024
- **Treefrog Accelerator** Vaughan, Ontario
Completed Cohort 11 to accelerate my startup GradeAssist 2024

EXPERIENCE

- **GradeAssist** - The Scantron for Essays 2023 - Present
Founder & CEO
 - Developed an all-in-one AI essay grading platform to help teachers save time, deliver better feedback and reduce bias.
 - Iterated on feedback to scale to **770+ teachers** around the world who have graded **2800+ essays** saving **42,000+ minutes**.
 - Implemented 3rd party APIs for **Plagiarism and AI Detection** with a custom Node.js backend, ensuring utmost security.
 - Built on Azure OpenAI, Next.js, Tailwind CSS, Vercel, and Firebase, creating staging and production environments for CI/CD
 - Accepted into Microsoft for Startups, Treefrog Accelerator and LOI Accelerator, receiving **\$150,000** in Azure Credits to scale.
- **TigerClip Software** - Advanced Sports Film and Stats Analysis 2024-Present
Co-Founder
 - Developed a software platform for basketball coaches to create clips for their game film with custom shortcuts, **70% faster**.
 - Developed an **advanced stats** tracking system with an intuitive interface, similar to those found in professional leagues like the NBA.
 - Partnered with Hodan Prep, a notable basketball team that launched **Andrew Wiggins** and other **NBA players**.
- **Kew Entertainment** - Real Time Song Requests at Parties 2023 - 2024
Co-Founder
 - Built a real-time app that allows users to send song requests to DJs during events, enhancing the party experience.
 - Developed a responsive web app (PWA) using React.js and Vite, with Firebase, Spotify API, and Vercel for real-time updates.
 - Scaled the platform to handle **5000+ song requests** across **5 events**, reaching **1000+ users** within 2 months.
- **Green Gizmos** - Eco-friendly 3D Printing Ontario 2022 - 2023
Founder
 - Designed a portable, adjustable, and eco-friendly phone stand using sustainable materials, combining functionality with environmental consciousness.
 - Developed and managed a **Shopify e-commerce website**, overseeing 3D printer operations and driving sales.
 - Launched a charity campaign in collaboration with **TeamSeas**, removing 1lb of ocean garbage for every product sold, aligning business goals with environmental sustainability.
- **Exceed Robotics** Vaughan, Ontario 2021
Project Lead
 - Developed a smart home system as an alumni, to teach to incumbent students in the Arduino robotics program.
 - Pitched to executives to demo a full-stack hardware and software solution using **ESP32 + Arduino** and a **Node.js web server**
 - Researched, developed and completed the project in less than 1 month during the summer after I graduated from elementary school

PROJECTS

- **HyperSearch AI:** Built a state-of-the-art RAG chrome extension using LLMs for language-agnostic video content search
- **Yapper App:** Built an anonymous social media app using React Native, Firebase and Google Cloud Vision APIs
- **Gorg App:** Built an award-winning AI mental health support app using React Native, Firebase, and OpenAI API.
- **SpillTheTea Social:** Built an anonymous social media platform using PHP, MySQL, HTML, CSS, jQuery, JS

AWARDS

- **Hack the Valley 9:** 2nd Place - AI agent software that automates hackathon project creation by simulating product managers and developers to build simple web-based projects (2024)
- **2x Ingenious+ Innovation Award:** Gorg (2024), GradeAssist (2023)
- **Youth Entrepreneurship Pilot Grant Recipient:** York Region (2023)
